

35 YEARS

NEW MOMS

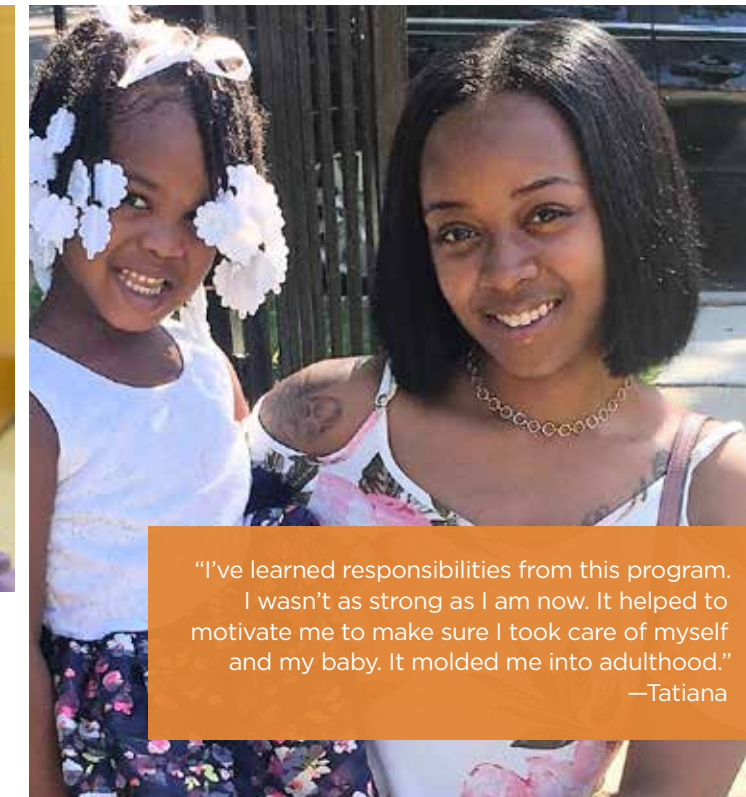

New Moms has been the premier support program in Chicago for young moms and their children for 35 years.

With a special focus on this population, we have incorporated the newest research and best practices on brain and behavioral science into our services to ensure young families find support and develop the skills they need to reach their goals.

This year we continued the work of strengthening families as we began construction of a new building to offer housing to 18 more families experiencing homelessness in Oak Park and the surrounding suburbs. We refined our job training program to ensure that young moms would graduate with confidence to achieve their goals. And we saw our family support program continue to expand, serving more families than ever before. Your support of New Moms is an investment in the lives of young moms as they strengthen their determination to lead their families into a better future.

“My mentality changed. I came in thinking I’m not here to make friends, and I came out with a whole bunch of friends and support.”
– Luz

“I’ve learned responsibilities from this program. I wasn’t as strong as I am now. It helped to motivate me to make sure I took care of myself and my baby. It molded me into adulthood.”
—Tatiana

OUR MODEL

Our model is designed to support life transformation. Young mothers and their children can find safe and stable housing, a path to employment, and the tools they need to learn and develop strong parenting skills. This unique, wrap-around approach results in deep and lasting change and interrupts the cycle of poverty for two generations of youth.

"New Moms brought out the mother in me."
- Kirsty
