New Moms helps me **gain experience in a paid job training program**. It's amazing. They teach us how to have teamwork and how to be leaders. They tell us about opportunities, like applying for student financial aid to go to college. I didn't know that I'm flexible at work or that I have good time management skills, but I learned that about myself here... My mind was broken down before. **Now, I feel confident. I built my strength back.** As soon as I finish New Moms, I'm going back to college to study child psychology and become a therapist.
